Summary

Computer Science & Engineering Student at The Ohio State University '2029, with a passion in software development and web development. Eager to gain experience in the field.

Skills

Experienced in Java, SvelteKit, Microsoft Excel, TypeScript, and other web development technologies. Proficient in Python, MySQL, and MatLab. Frequent user of Git, GitHub, VSCode, and Google Sheets.

Experience

- **Gottheimer for Congress • Intern • May 2024 - November 2024**
Helped organize documents, conducted voter outreach through phone banking, and managed contact information with spreadsheets.
- **Honors Computer Science • Teacher Assistant • September 2024 - June 2025**
Graded assignments, assisted in instruction, and completed a full-stack custom testing program.
- **FRC Team 1676 • InfoTech • September 2023 - June 2025**
Built user interfaces for scouting infrastructure used by the entire team, designed UI for FRCTree, assisted in backend server management.

Projects

- **natelevison.com • Developer • March 2022 - Present**
Built a personal blog, portfolio, and homepage as a passion project. While making and maintaining it, gained skills in full-stack web development, multiple web development technologies, and a passion for writing.
- **FRCTree.team1676.com • Developer & bullet; December 2024 - April 2025**
Worked with teammates to design and build Linktree-like websites for FIRST Robotics Competition teams to share their social media platforms. Designed user experience around predicted audience metrics and created an authentication system from scratch.

Education

- **B.S. in Computer Science & Engineering (Expected 2029)**
The Ohio State University, Columbus, OH
Freshman
- **High School Diploma (2025)**
Pascack Hills High School, Montvale, NJ
TA for Honors Computer Science
