Summary

Computer Science & Engineering Student at The Ohio State University 2029, with a passion in software development and web development, and hobbyist writer and game developer. Eager to gain experience in the field.

Skills

Experienced in Java, SvelteKit, Microsoft Excel and TypeScript. Proficient in Python, MySQL and MatLab. Frequent user of Git, GitHub, VSCode, and Google Sheets.

Experience

- **Online Instructor • iDTech** • June 2026 - August 2026
  Taught multiple students in Arduino, Java, and Scratch through private lessons, and virtual tech camp. Communicated with clients, and developed lesson material for each student.

- **Teacher Assistant • Honors Computer Science** • September 2024 - June 2025
  Graded assignments, assisted in instruction, and completed a full-stack testing program for quizzes, with Google OAuth, SQLite, and a custom backend.

- **InfoTech Member • FRC Team 1676** • September 2023 - June 2025
  Built user interfaces for scouting infrastructure used by the entire team, designed UI for FRCTree, assisted in backend server management, collaborating with 3-4 team members.

Projects

- **natelevison.com** • **Developer** • March 2022 - Present
  Built a personal blog, portfolio, and homepage as a passion project. While making and maintaining it, gained skills in full-stack web development, multiple web development technologies, and a passion for writing.

- **FRCTree.team1676.com** • **Developer** • December 2024 - April 2025
  Designed user authentication system and API for a social platform for FRC Robotics Teams. Collaborated with team members to optimize user design and codebase.

Education

- **B.S. in Computer Science & Engineering** (Expected 2029)
  The Ohio State University, Columbus, OH

- **High School Diploma** (2025)
  Pascack Hills High School, Montvale, NJ
  Teacher Assistant for Honors Computer Science
